助けて!?

Did you collapse?...
ゴゴゴゴゴゴゴゴ
ぼんやり
the guy who found you is hiding ...
Fuu... I finally recovered to 30%
You are going to eat more?

So they weren't enemies but allies
So you have the [Taming] Sense?
No, I'm fine, but these tamed ones need food
Yeah
By the time can you introduce yourself?
Let's talk in detail as we're eating
.....

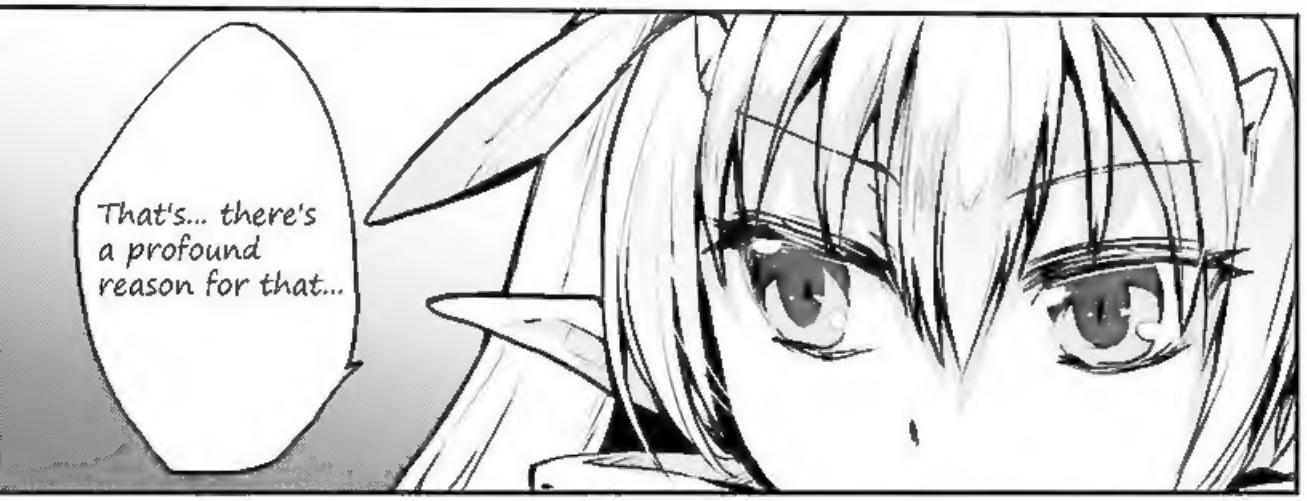
So why are you wearing Elf ears?
I'm Letia. I've made the character in image of the forest people; the elves
Now these tamed beasts
The Herbivore is Haru and Mill Bird is Natsu

I can see that. And I advise you to change it as soon as possible
I'm Yun. As you can see, an archer
Well

Letia, why have you fallen over in such a place?



That's... there's a profound reason for that...

Although I went in to the woods hoping to find a rare young beast during the event
I've distributed my portion of food to Haru and Natsu... a lot happened
No, I won't say 'you reap what you sow', but food can be collected at various places
And if you have a corresponding Sense you can appraise items to check if they'resafe, right?

厚くてアツい新世代型コミック誌！ ドラゴンエイジ

That's... embarrassing, but I've acquired 【Light Element Talent】 for overnight activities and cannot get another new Sense

お恥ずかしい…

Then you could join some party

Or barter with items you had on you for food

The consumables only restored a small amount of satiety, I have eaten them

Several times I have received an abnormal state after eating food I picked

Is that something to boast of?!

You're a mysterious person
Helping someone who collapsed and teaching me a way to survive without asking anything in return...

【Taming】too is considered a mishappen and dead Sense, I've been told a lot of stuff about it
No such thing

Hey, are you looking for a fight here?
And you have a bow as a weapon. I can sympathize as I too hold a mishappen Sense

Certainly 【Taming】 is hard to use, the probability of taming a mob is low
It is a dead Sense because a huge amount of luck is required for it to work properly?
That recognition is half-right, and half-wrong
Haa? What do you mean?
There must be something else other than relying on luck
For example! winning them over, didn't you notice anything?
Huh
Umm, feeding I guess?
Indeed
Also, you can win them over by showing your combat skills with Taming turned on
It's possible to increase the chance of success by several methods

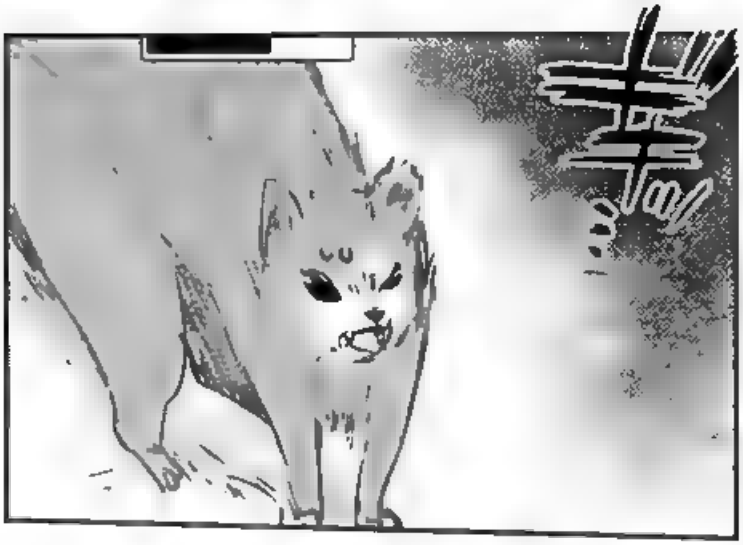
Look, it's food
Come over here

Next, you can try captivating it by playing a musical instrument
あいつらペットか
However unlike the time I encountered the little ones, it was quite wary and wouldn't just come close

As expected she must be able to get out a beautiful tone from it but
トオヤはエルフ(女児)
スゥ…

ボーゼン
Like this you use a [Musical instrument] to deepen your friendship with the other party
Before that it has already turned stiff in amazement That weasel's mocking you



Weird When the enemy was a goblin it waved both of its hands and started dancing Well the performance is finished let's try it It might have been because its level is low
That ain't good

Sometimes they turn hostile for no reason at all In the middle of solicitation How unusual
Hey isn't it completely furious

That's no good at all! Hey, uwaa?!
A Kamaitachi huh
It's hostile now, is there no choice but to defeat it?
You... what...

Damn
Did this guy turn into an enemy?
I get it. We just need to render it powerless. If that's fine then let me go
《Enchant》 Mind
Letia! Don't stop healing me!

Don't give me so much trouble, geez!
Sleep

No matter what I make, it always turns out to be handy. An abnormal state drug
No, it was a right person for the right job. Yun-san's a mysterious person after all. Well, to defeat a rare animal like that would be a waste. I think it was a good decision.

Even so, it seemed like it was damaged by someone before it met us.
Was there a player who aimed at the young ones or did it fight with another mob?
I do not understand

Even the young Unicorn is here...

I'll make a base camp in an appropriate spot and go to sleep
Hm, sunset is about to come. What will you do, Letia?

Hm? What's this?

Well
Then we'll be separating here

It is a dangerous equipment
Wrath Ring 【Ornament】
DEF+15 MIND+15
Additional Effect : 【Anger 3】

Is there something dangerous in this equipment...?
Well, no matter how much I think about it I won't find an answer. Let's just put thing in the inventory
